

COMPOSITES EUROPE – European Trade Fair & Forum for Composites, Technology and Applications

7 – 9 October 2014, Düsseldorf Exhibition Centre

Wind Energy meets Composites – Guided Tours at COMPOSITES EUROPE

The wind industry is facing the challenges of a steadily increasing cost pressure. Automation and mass production require innovation and new materials. The products and services, presented at COMPOSITES EUROPE, are the tools for the technological and economic development of wind energy in the future.

On 8th October 2014, the second day of the exhibition, there will be guided tours entitled „Wind Energy meets Composites“ conducted in cooperation with OMWINDENERGY. The 90-minute guided tours will include practical demonstrations and interesting background information from various associations and companies.
